TECO Tyr

Tank Spray System

25 Years of High Quality Cleaning Chemicals

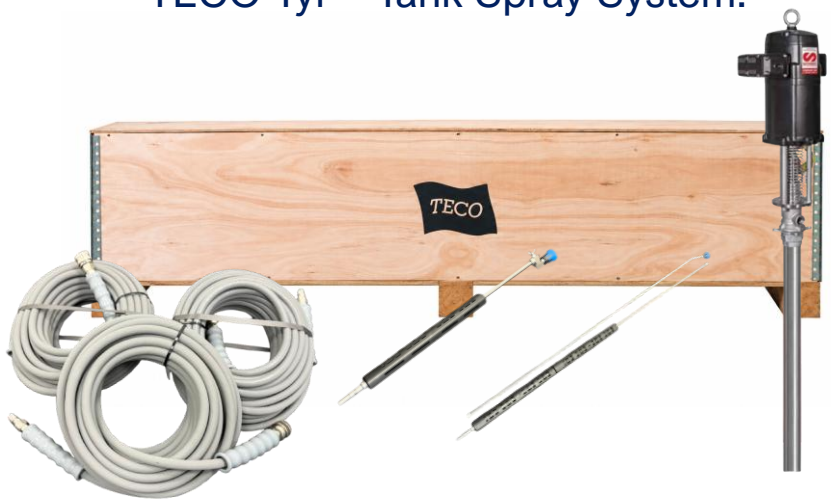
Quality Without Compromise

Description:

By having 30 years of running experience in the cargo hold- and tank cleaning industry for the maritime sector, TECO Chemicals have broad experience in succesfully delivering key solutions, products, and services to its world wide customer base.

“Tyr – Strength through discipline.” Named after the god of law and order, representing controlled power and operational reliability.

TECO Tyr – Tank Spray System:



The TECO Tyr - Tank Spray System is a robust and high-performance solution specifically developed for tanker vessels requiring controlled manual spraying inside cargo tanks or chemical injection into cleaning lines. Driven by a powerful Samoa piston pump, TECO Tyr delivers stable pressure and consistent output, ensuring efficient chemical application up to 17meters. The system is engineered to handle the operational challenges found onboard tankers, where reliability and precision are critical.

TECO Tyr is ideal for:

- Manual spray application inside cargo tanks
- Injection of chemicals into tank cleaning lines
